

Using the Boston Property Assessment data, create a report with the following

- Page 1
 - Look up the address of the Paul Revere House in Boston
 - Use the address to find and display the following information
 - Owner Name
 - Street Number, Street Name, Zip Code
 - Year Built
 - Total Assessed Value of the Property
- Page 2
 - List the Owner, Street (number, name and suffix), zip code and gross tax assessment.
 - Limit to zip code 02136 and owner occupied properties
- Page 3
 - Create a crosstab (matrix) report
 - Columns = Year Built (limit to years 2010-2016)
 - Rows = Zip Code
 - Data = Count of properties (PID)
- Page 4
 - Geo Map of Total Assessed Value by Zip Code
- Page 5
 - Table of Zip Code, Average Gross Tax, Number of Properties
 - Sort in descending value of Average Gross Tax

After completing all five pages, print each page as a PDF and submit the results for your assignment.
